What is UNITAR

1

unitar

United Nations Institute for Training and Research

The United Nations Institute for Training and Research - UNITAR is a training arm of the United Nations system, which has as objective to enable individuals, governments and organizations expanding knowledge and learning to effectively overcome the contemporary global challenges

What is Cifal Network

1

The CIFAL Network is part of the decentralized cooperation program of UNITAR and aims to serve as an excellent training platform for training government officials and civil society leaders in sustainable development, as well as mandates and global goals of the United Nations.

What is Cifal Network
